TOYOTA

PUT YOURSELF OUT THERE

A WORLD OF ADVENTURE IS OUT THERE - AND, IN THE PROUD TRADITION OF LAND CRUISER, YOU'RE READY TO SHOW IT WHO'S IN CHARGE.

Driving a Land Cruiser has always meant doing things on your own terms. And the new Land Cruiser Prado gives you the all-terrain durability and performance you demand, coupled with outstanding luxury. In the Land Cruiser Prado, brute power is harnessed to ground-breaking technological innovations like MTS (Multi-Terrain Select)* and Crawl Control*. The result is go-anywhere off-road capability, with no compromise on top-end performance, handling and safety on highways and byways.

Of course, when you're blazing a trail, you want to make a good first impression. The sleek restyled contours of the new Land Cruiser Prado pay tribute to its proud heritage, with all the refinement of a modern classic, while onboard comfort takes getting away from it all to a new level. Whatever awaits you out there, you can rely on Land Cruiser Prado to deliver outstanding performance and pleasure all the way.

PROUDLY CARRYING THE LAND CRUISER LEGACY FORWARD.

The Land Cruiser family pedigree can be traced back almost 60 years, when the original 1951 Land Cruiser was launched, setting new standards in off-road endurance, durability and reliability. Wherever man has dared to challenge the toughest terrain on four wheels, there Land Cruiser has led the field. On all seven continents, including Antarctica, Land Cruiser has been the measure of off-road capability - a heritage now proudly carried forward in comfort and luxury by the Land Cruiser Prado.

CONQUER THE OUTDOORS IN STYLE

WHEREVER THE CALL OF THE WILD TAKES YOU, THE NEW LAND CRUISER PRADO ANSWERS WITH A SOPHISTICATED STYLE OF ITS OWN, OFFERING THE ULTIMATE IN LUXURY AND COMFORT, EVEN AT THE ENDS OF THE EARTH.

Form and function go hand in hand in the refined styling of the new Land Cruiser Prado. Your vehicle is more efficient aerodynamically, which not only means improved stability and better handling, it cuts down drag to give you better fuel economy and reduce cabin noise.

4.0 PETROL VX AUTO

HEAD ON OUR

THERE'S NOTHING STOPPING YOU IN YOUR LAND CRUISER PRADO. POWERED BY OUR LEGENDARY, TIRELESS ENGINES. THE NEW 3.0 D-4D, 4-CYLINDER TURBO DIESEL ENGINE FITTED WITH AN INTERCOOLER DELIVERS 120KW AND AN IMPRESSIVE 400NM OF TORQUE, WHILE THE 4.0 V6 PETROL MODEL PUMPS OUT 202KW AND 381NM RESPECTIVELY.

And to match their stamina, a whopping 150-litre fuel tank capacity is standard, to give you all the long distance range you need.

Getting there is only half the fun. Tackling the most extreme challenges in far-off places, the Land Cruiser Prado comes into its own. The hard-as-nails ladder-frame chassis shrugs off twists and turns. And even the most seasoned off-roader will be impressed by the advanced off-road technological innovations that come standard.

Crawl Control* and Multi-terrain Select* regulate the motion of each of your wheels independently – automatically braking and accelerating to enable you to navigate up or down the most punishing and uneven terrain. This is paired with a Multi-terrain Monitor System with 4 cameras* on the exterior sides, front and back. Viewing on the dashboard mounted screen is controlled by a steering wheel mounted switch. Combined with clearance and distance sensors, this gives you almost 360° vision at ground level. All you do is steer!

OUTSTANDING THROUGH THICK

AS MUCH AS THE LAND CRUISER PRADO LOVES TO ROUGH IT, ITS INTERIOR IS DESIGNED TO CATER TO YOUR EVERY NEED FOR COMFORT, LUXURY, SPACIOUSNESS AND CONVENIENCE.

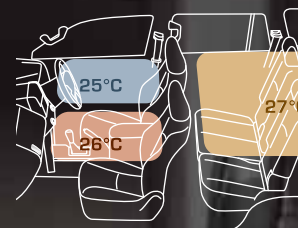

From the generous, leather seats (with a driver's seat that "recalls" and automatically adjusts to your preferred posture*) to the 4-zone independent climate control*, from the superb 14-speaker, Bluetooth® compatible sound system (with in-dash 6-DVD changer)* to the handy refrigerated cooler box* built into the rear console.

While the roomy cabin boasts enough creature comforts and onboard technology to make every minute a pleasure, no expedition is complete without a family's worth of gear. To fit everything in, the versatile three-row, seven-seat configuration can be adapted at will. Recesses under the third row of seats allow the entire back row to electronically* be folded and stowed under the floor, for maximum stowage space.

On long distance trips, cruise control* and the Hard Disc Drive (HDD) satellite navigation system* allow the driver to relax and enjoy the drive. Mile after mile, through thick and thin, the comfort of the Land Cruiser Prado reduces driver and passenger fatigue and enhances the pleasure of getting out there.* **VX models only**

A new addition is the refrigerated cooler box* nestled between the driver and passenger seats for easy access.

The separate rear controls allow passengers to adjust the temperature to their needs. Four vents in the rear of the seat ensure good air flow.

Easy seat folding allows flat storage space for the rear.

TAKE SAFETY TO OUTER LIMITS

PUTTING YOURSELF OUT THERE SHOULDN'T MEAN COMPROMISING YOUR SAFETY.

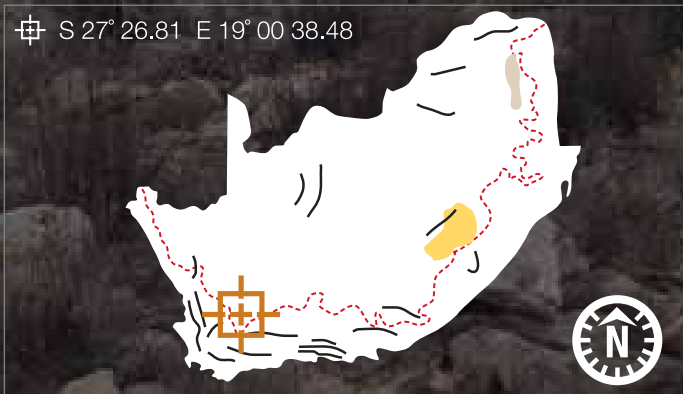

In fact, the Land Cruiser Prado goes to extremes to ensure the safety of you and your family. As a driver, your first line of defence is avoidance, which is where the advanced handling technology of your Land Cruiser Prado comes into its own. The KDSS (Kinetic Dynamic Suspension System)* optimally balances the effect of the front and rear stabilisers by electronically controlling a set of valves. Optimal use of the stabilisers results in outstanding on-road comfort and stability, alongside uncompromised traction off-road.

Stopping power and control when braking is ensured through large 4-pot calliper brakes, further enhanced through Multi-terrain ABS (Anti-lock Braking System)*, EBD (Electronic Brake force Distribution) and BAS (Emergency Brake Assist System). A key factor in accident avoidance is visibility. So, at the onset of rain, your Prado's rain-sensing wipers* switch on automatically. When you engage reverse gear, the Satellite Navigation screen* becomes a monitor for the rear-mounted camera*. Used in tandem with a clearance and back sonar that uses sensors to detect obstacles around the vehicle and a buzzer to indicate proximity, it lets you know exactly what's behind you and how far it is. Reverse parking or fine manoeuvring has never been easier or safer.

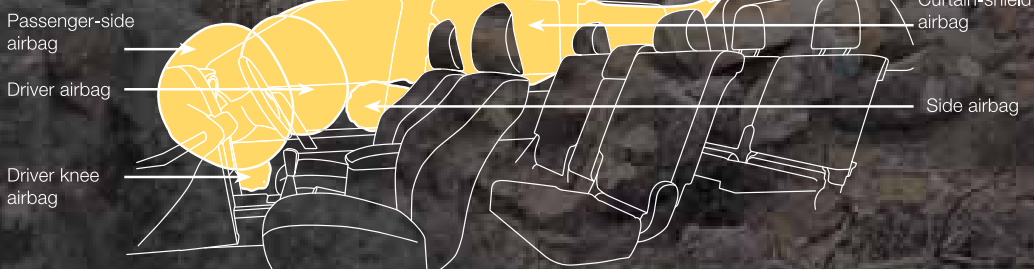

In case of collision, the reinforced chassis, passenger safety shell and door impact beams are designed to maintain structural integrity, while strategic crumple zones absorb the impact. Inside, the cabin is cocooned by a combination of automatically deployed front, side and curtain shield airbags. Further driver protection is provided by a 2-stage system with an additional knee airbag.

Whatever the conditions, wherever you choose to go, you can drive with total confidence in the safety features of your vehicle.* **VX models only**

TOYOTA'S VISION OF SUSTAINABILITY IS
AND HONoured AT ALL LEVELS. OUR
COMPANY WIDE ENVIRONMENTAL POLICY
ENSURES THIS.

EMS guarantees constant progress at Toyota, such as measuring the environmental impact, but has also driven the radical reduction of CO2 at our plant, and along our entire supply chain. And through the comprehensive Toyota Environmental Management System, we encompass all areas of Toyota's operations.

OUR WAY ONMENT

SUSTAINABLE MOBILITY IS INGRAINED LEVELS. THE INTRODUCTION OF A ENVIRONMENTAL MANAGEMENT SYSTEM (EMS)

Toyota world-wide, as it not only allows for efforts to reduce the environmental impact of our vehicles over entire life cycles, but also the environmental impact at our manufacturing facilities. Any current negative impact is being addressed through our Environmental Action Plan, known as ECO-Project. This includes initiatives from the design of new vehicles and

manufacturing processes, to the use of materials and end-of-life recycling programmes. You may read more about these projects and the Toyota Earth Charter at www.toyota.co.za to find out how Toyota is working towards its eventual goal of zero emissions in all its activities and products. Thanks to a philosophy of continuous improvement and the quest for zero emissions, Toyota's new generation engines are cleaner-burning than ever with dramatically reduced exhaust emissions. You can rest assured that no matter what colour Prado you choose to drive home, it's several shades greener than most vehicles on the road today.

Even the brochure you're holding was printed on recycled paper for minimal environmental impact. And location photography was carried out taking care to ensure that no fauna or flora was harmed.

ToyotaCare. A unique feature of every Toyota. Your Toyota Prado is delivered to you with the added feature of ToyotaCare and a comprehensive choice of total care packages that put you first. So live your life and look forward to the road ahead, while the 5-year/90 000km ToyotaCare Service Plan looks after your car.

ToyotaCare Service Plan

Your Toyota features a standard 5-year/90 000km ToyotaCare Service Plan that pays for scheduled service items and labour. Visit or consult your nearest dealer for details on the regular service schedule as well as a comprehensive list of items covered by the ToyotaCare Service Plan.

ToyotaCare Extended Service Plan

The ToyotaCare Extended Service Plan can be purchased to cover the standard replacement items and labour of regular, scheduled services within the specified service intervals after the standard ToyotaCare Service Plan has elapsed. The ToyotaCare Extended Service Plan may be purchased in advance, or at any time during ownership, before or after the standard ToyotaCare Service Plan has elapsed.

ToyotaCare Maintenance Plan

This upgrade offers the ultimate in hassle-free motoring for up to 195 000km. In addition to an extension on the ToyotaCare Service Plan, Roadside Assistance Plan and Warranty, this complete package covers all the normal wear-and-tear items, electrical components and more.

ToyotaCare Warranty

A ToyotaCare Warranty provides you with financial protection in the event of mechanical or electrical defects, for 3 years or 100 000km. A 3-year corrosion perforation warranty is also standard.

ToyotaCare Extended Warranty

The ToyotaCare Extended Warranty is a genuine extension of the original manufacturer's warranty, and provides unlimited coverage of exactly the same items than the standard ToyotaCare Warranty. The ToyotaCare Extended Warranty is available in various intervals, and may be purchased in advance, or at any time during ownership, before or after the standard ToyotaCare Warranty has elapsed.

ToyotaCare Roadside Assistance Programme

Toyota's Roadside Assistance Programme is applicable to all Prado models under ToyotaCare Warranty for a period of 3 years/100 000km, or for the duration of a purchased ToyotaCare Extended Warranty.

This package entitles you to the following 24-hour emergency roadside assistance benefits: out of fuel assistance, jump-start service and/or replacement of battery (if battery is still under the 1 year guarantee), change of flat tyre, key lockout service, towing of your vehicle to the nearest Toyota dealership in the event of a mechanical/electrical breakdown (should a roadside repair not be possible) and a message relay service.

NB: The Roadside Assistance Programme is applicable in South Africa and Namibia only. Please see your Toyota Book of Life for more information or call the Toyota Customer Care line on 0800 139 111.

Toyota Book of Life

The Toyota Book of Life is proof that your Toyota has been professionally maintained and fitted with genuine Toyota parts and may add to your vehicle's value.

At Toyota Financial Services, we believe that purchasing your Toyota should be as enjoyable as driving it. Toyota Financial Services is the fast, flexible and convenient means of financing your exceptional Prado. We have created a range of financial products that suit both private and business customers, easily accessible through your local Toyota Dealer. We take the hassle out of arranging finance. Toyota Financial Services (South Africa) (Pty) Ltd is an authorised Financial Services Provider and Registered Credit Provider (NCRCP62).

Certain vehicle details and specifications contained in this brochure may differ from available models. Toyota Motor Corporation of Japan and Toyota South Africa Motors (Pty) Ltd make no warranties, either expressed or implied, concerning the accuracy of contained material. Toyota reserves the right to alter any details of specifications and equipment without notice.
